

# Fact Families

A family of facts has all the same numbers.

Write the fact family for each set of numbers below.

a)

$$\begin{array}{rcl} \underline{1} & + & \underline{3} = \underline{4} \\ \underline{3} & + & \underline{1} = \underline{4} \\ \underline{4} & - & \underline{3} = \underline{1} \\ \underline{4} & - & \underline{1} = \underline{3} \end{array}$$

b)

$$\begin{array}{rcl} \underline{\quad} & + & \underline{\quad} = \underline{\quad} \\ \underline{\quad} & + & \underline{\quad} = \underline{\quad} \\ \underline{\quad} & - & \underline{\quad} = \underline{\quad} \\ \underline{\quad} & - & \underline{\quad} = \underline{\quad} \end{array}$$

c)

$$\begin{array}{rcl} \underline{\quad} & + & \underline{\quad} = \underline{\quad} \\ \underline{\quad} & + & \underline{\quad} = \underline{\quad} \\ \underline{\quad} & - & \underline{\quad} = \underline{\quad} \\ \underline{\quad} & - & \underline{\quad} = \underline{\quad} \end{array}$$

d)

$$\begin{array}{rcl} \underline{\quad} & + & \underline{\quad} = \underline{\quad} \\ \underline{\quad} & + & \underline{\quad} = \underline{\quad} \\ \underline{\quad} & - & \underline{\quad} = \underline{\quad} \\ \underline{\quad} & - & \underline{\quad} = \underline{\quad} \end{array}$$
